Aver's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Saraaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowiditizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RAIGIA OR TIC DOULGUREUX, DESILITY, DYS-PEPSIA AND INDICESTION, ERYSTPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impurity or

This compound will be ound a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pumples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves sauch, the senutation of accomplishing these ends. But

reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

PREPARED BY DR. J. C. AYER & CO. Price, \$1 per Bottle; Six Bottles for \$5.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has over been found to do.

few days after my arrival I learned that Col.
Wilcox of the 2d Michigan, and several others,
had arrived. I was determined to see them, if
possible. I went to the Surgeon-General, and All this time I was obliged to wear my riding-habit. The Government never provided me with a thing. They often promised me to get me everything I needed, but it never amounted to anything more than promises. A few days after my arrival I learned that Col. Wilcox of the 2d Michigan, and several others, bad arrived. I was determined to see them, if had arrived. I was determined to see them, if possible. I went to the Surgeon-General, and told him I was a Northern lady, and that I had friends there that I would like to see. He gave me permission. I saw Capt. Ricketts, and Col. Wilcox. Major Potter, Capt. Jones, and several others whose names I cannot now remember. They all seemed to be doing well. I know, from good authority, that our wounded men are not very well treated. I tried (but unsuccessfully) to see Mr. Ely and Col. Corcoran. I believe they are retained as heatages for Col.

believe they are retained as bostages for Col. Thomas, or "the French lady." Richmond is very dull, and there is a universal complaint of hard times, and a great deal of complaint against being compelled to fight. They are drafting all the men capable of bearing arms. If any of the Savannah prisoners are executed, they will hang ten for every one. I believe they will do as they say. I was liberated and sent to Norfolk, in company with twenty-three others. When we arrived at Norfolk, we were put on board a steam tug and conveyed, under a flag of truce, to the United States steamship a flag of truce, to the United States steamship Minnesota. Our glorious flag never looked so beautiful as when I first looked upon it to day. "O, long may it wave o'er the land of the free and the home of the brave." I need not tell you how kindly I was received by Com. Stringham and his officers, and also by Gen. Butler, with whom I dined. I am now on board the steamer Georgiana, bound for Baltimore, on my return to my friends at Washington, where I hope to arrive safe and well.

On Saturday morning a call appeared in the Whig and Courier for a "Union" Meeting in Norombega Hall, to be holden that evening. I Norombega Hall, to be holden that evening. I was not present, but am credibly informed that William H. McCrillis, Representative to the Legislature from this city, and Charles S. Crosby, County Auditor, made inflammatory speeches. And here it should be said, to the honor of Henry E. Prentiss, Esq., that he attempted to make a speech opposing the efforts then and there being made to create a mob spirit, but his voice was powerless amidst a tempest of hisses. The mesting accomplished the object for which it was designed by those who originated it.

On Baturday and Sunday nights it became evident that my property was to receive no protection from the mayor. I took such precautions as were necessary for its security. Today I proceeded as usual on Mundays to print

Lieutenant Colonel Merritt, commanding the 000 to the early part of the engagement and considerably less than 4,000 for the concluding four hours of it.

Captain Emmet McDonald, of habeas corpus notoriety, arrived at Major Sturgis' camp this morning with a flag of truce, estensibly to negotiate an exchange of prisoners and procure medical stores for the wounded on both sides, but it is strongly suspected that he is really acting as a spy. What action Major Sturgis will take in the matter is not known.

Fowder and Lead in North Carolina.—We learn from the Raleigh Journal that Governor Clark recently ordered Prof. Emmons on an explosing tour, with a view to ascertain whether and where a supply of lead and the essential elements of powder, suited to the present exigencies could be obtained; and the result is most cheering. Professor Emmons reports that he is fully satisfied that enough of these munitions of war can be obtained to shoot all the tyrants in the world. In view of this, so satisfactory are the prospects, that a company has factory are the prospects, that a company has already commenced, or will soon commence the erection of a powder mill at a suitable point in North Carolina, Gov. Glack having contracted for a large quantity of powder at a fixed price.
